WINDOW NATION

POTOMAC-HP | REPLACEMENT WINDOWS

WHY WINDOW NATION?

Over 3,000,000 windows installed in more than 250,000 homes

Attention to Detail

- 50 Point Factory Inspection
- 20-point installation review
- 96% customer satisfaction on clean up and safety
- Custom windows measured 3x for precision, accuracy, and a tight seal
- Over 3 million windows installed with 96% requiring no follow up service

Quality

- Window Nation uses America's only integrated system of window installation materials, insulation, sealant, and caulking
- OSI Quad Foam
- OSI Quad Max exterior sealant
- Ultra-premium, high-performance exterior trim coil
- Concrobium mold spray treatment

Experience

- Installation crew leaders average more that 20,000 windows and over a decade of experience
- Service technicians average 15 years of experience
- Over 3,000,000 windows installed in over 250,000 homes
- 3rd largest window dealer in the country, ranked by Window and Door Market Magazine

Product Selection

- Over 1,500 custom window and door style combinations
- Energy Star® rated products
- Windows engineered for the specific climate you live in

Trust

- Angi™ Super Service award winner
- Limited Lifetime Warranty
- Exclusive 30-Day Price Protection Guarantee
- Licensed, bonded, and insured

The Window Nation Story

At Window Nation, we are proud of the partnerships relationships that have cultivated over the years.

ENGINEERED TO PERFORM

POTOMAC-HP DOUBLE-HUNG

Our top-of-the-line Potomac-hp double-hung windows are crafted with performance and design in mind. Clean, refined profiles maximize natural light, while a wide range of customizable interior and exterior options allow you to tailor the look to your home. Advanced thermal packages complete the experience, delivering exceptional energy efficiency without compromising style.

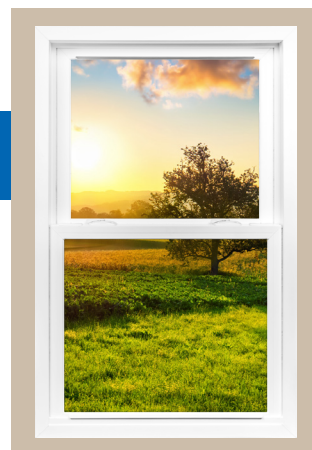

Features and performance:

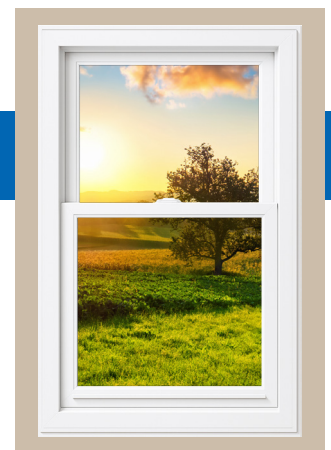

- 1 Welded sash and frame corners means durability and dependability
- 2 Special formula PVC never needs painting, makes cleaning a snap, and prevents scratching or denting
- 3 Dualtech sash locks combine locking and tilt-latch functionality, allowing both sashes to tilt in for easy cleaning.
- 4 Constant Force balance system allows years of easy, carefree window operation
- 5 Integral interlock keeps windows closed tight for added security and weatherproofing
- 6 VyFoam™ insulation in frame and sash provides maximum insulating performance
- 7 Triple weatherstripping at all sealing locations decreases air and water infiltration
- 8 Elegant, sculpted exterior for superior curbside appeal
- 9 7/8" sealed Insulated Glass Unit for increased insulating power
- 10 Magnetic seal virtually eliminates drafts, keeping your home comfortable
- 11 DP R-65—159 mph wind load (190% stronger than industry minimum)

MORE GLASS, SAME STRENGTH

The refined profile of the Potomac-hp Series is engineered to maximize visible glass without sacrificing structural integrity. Advanced reinforcement and precision construction allow for expansive views while maintaining long-term strength and performance.

Potomac-hp Series

Competitors

ENGINEERED WITH DURALITE® WARM-EDGE TECHNOLOGY

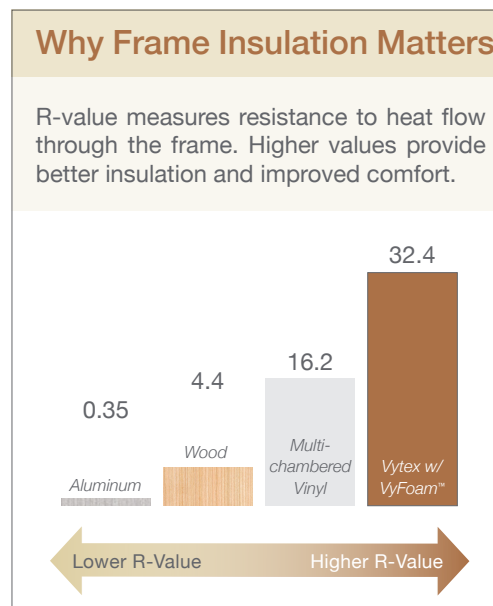

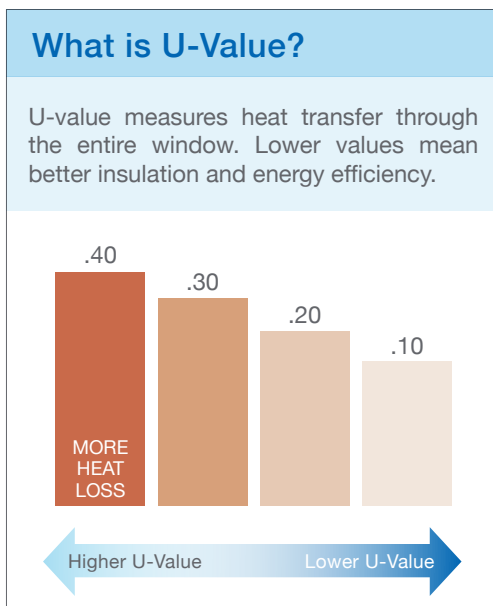

The Potomac-hp Series features the Duralite® spacer system, an advanced warm-edge technology engineered to enhance thermal performance at the glass edge. Designed to support long-term efficiency and durability, Duralite® helps maintain a consistent seal around the insulated glass unit while reducing heat transfer and improving overall comfort in the home.

Constructed to remain flexible through wide temperature swings and pressure changes, the Duralite® spacer system supports reliable insulating gas retention and contributes to improved resistance to condensation over time. The result is an insulated glass system designed for dependable, year-round performance.

UNDERSTANDING ENERGY PERFORMANCE

Key performance metrics that impact energy efficiency and year-round comfort.

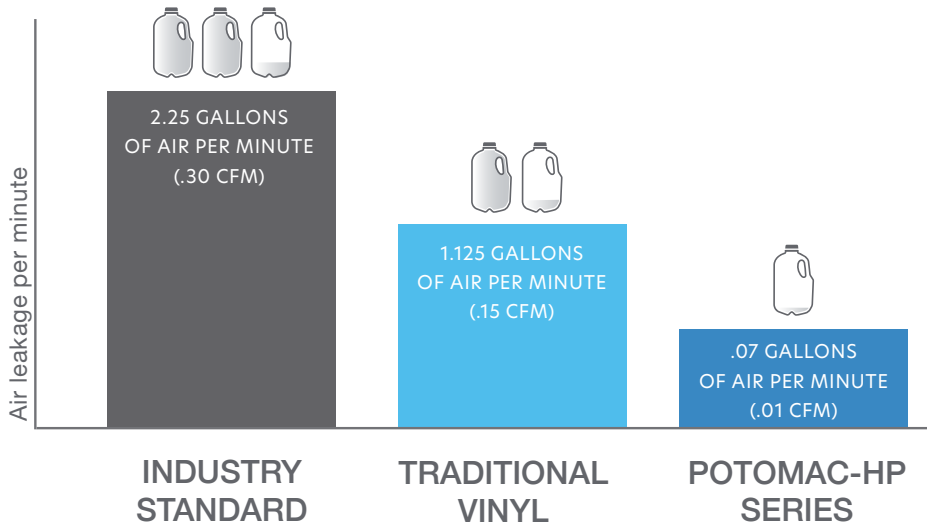

ENERGY EFFICIENT GLASS OPTIONS

GLASS PACKAGE	U-FACTOR	SHGC	ENERGY STAR ZONE
Energy Saver Max	0.25	0.30	NC
Energy Saver Max-hp	0.18	0.25	N, NC
TripleSilverLoE-hp	0.25	0.22	NC, SC, S
Energy Saver R5	0.21	0.29	N, NC
Energy Saver R5 TripleSilverLoE	0.21	0.22	N, NC, SC, S

COMFORT YOU CAN MEASURE

AIR INFILTRATION PERFORMANCE

Lower air infiltration values indicate a tighter seal and reduced drafts.

Best In Class .01 CFM
Virtually Zero Air Leakage

Industry Standard: The window & door industry adheres to standards set by FGIA® (Fenestration & Glazing Industry Alliance®). Per FGIA, the industry standard for Maximum Allowable Air Infiltration is 0.30 CFM (Cubic feet per minute) during a 25 mph wind. This is the equivalent of 2.25 gallons of air escaping through the window every minute.

COMPLEMENTARY WINDOW STYLES

BAY AND BOW WINDOWS

Bay and bow windows extend outward from the home to create expansive views, increase natural light, and add architectural depth. Precision construction and reinforced design ensure lasting strength while allowing for a wide range of customizable configurations and finishes.

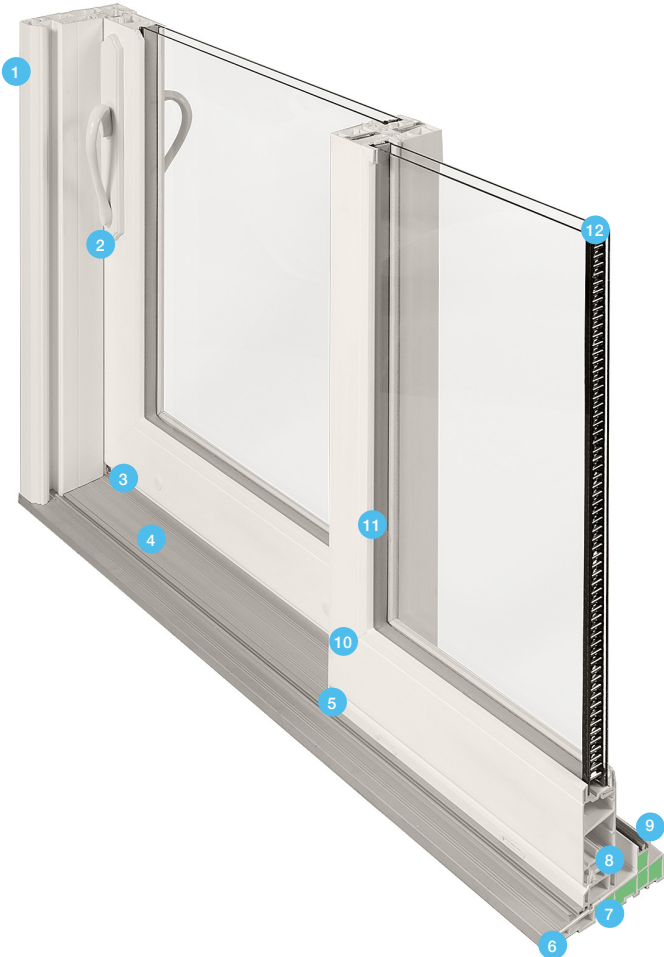

- Steel-threaded mullions provide unmatched strength
- Insulated seat board reduces energy costs, prevents cold air transfer, and protects against condensation and finish failures
- Available in three, four, five and six-lite configurations
- Available with various trim packages, exterior colors, solid-surface seat boards, custom roofing systems and more

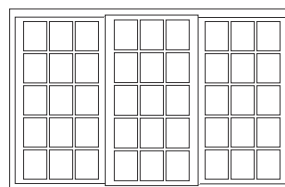

SIGNATURE SERIES SLIDING PATIO DOOR

We offer elegant sliding patio door designs to complement your new windows and give your home a fresh, sophisticated style. Our sliding patio doors are engineered for exceptional durability and cost-saving energy efficiency.

Features and performance:

- 1 Sculpted exterior frame design
- 2 Stainless steel multi-point locking system for added security
- 3 Adjustable dual tandem rollers for smooth operation
- 4 Low-profile aluminum threshold for easy entry
- 5 Custom-engineered drainage system to help manage water
- 6 Multi-chambered frame for strength and energy efficiency
- 7 VyFoam™ insulation for enhanced thermal performance
- 8 High-performance sill dam for added water protection
- 9 Steel roller cover for quiet, reliable operation
- 10 Fusion-welded sash for long-term durability
- 11 Beveled sash for a refined, finished look
- 12 Super Spacer® warm-edge spacer system
