- Licensed, bonded, and insured

THE WINDOW NATION FOUNDERS' STORY

At Window Nation, we know replacement windows. We're third-generation window replacement experts who have been lucky to provide homeowners replacement windows, siding, and doors for over twenty years. Our co-founders Harley and Aaron Magden grew up in the window replacement industry, learning the business from the ground up. We opened our first showroom in Maryland in 2006, quickly growing to serve homeowners in cities across the country – and we're not stopping there. We're grateful for every homeowner who has trusted us to upgrade their most important asset: their home.

We've learned a lot about home improvement over the years, but the most important thing we learned isn't about window replacement. We learned the home improvement industry isn't about offering the best windows, siding and doors; it's about the relationships we build with our customers. Your home is your most important asset, and we don't take the opportunity to work with you lightly. There's nothing more important to us than providing high-quality windows, siding and doors to help you turn your house into your dream home.

Our team at Window Nation will go the extra mile to ensure your project goes smoothly. We pride ourselves on our attention to detail, and you can feel comfortable knowing you're working with one of the most experienced, detail-oriented teams in the industry. Our team undergoes hours of ongoing training and education on the latest technology, products, and techniques to ensure our company exceeds your expectations.

Our goal at Window Nation is to help our customers find the perfect windows, siding and doors for their home. We want our customers to feel good about their decision to work with our company, and our team will go above and beyond to ensure you have the best possible experience. Our exterior design consultants are specially trained in the best practices in window replacement, helping you find the perfect fit for your home and wallet. We offer a variety of window styles, custom-made to fit your home's unique needs. When you choose replacement windows from Window Nation, you'll enjoy a curb appeal boost while keeping your home comfortable no matter the season. All Window Nation products are Energy Star certified, saving you money on your energy bills no matter the season.

There are many home improvement companies eager for your business, and we're honored you're considering Window Nation for your project. We don't take your decision to work with our team lightly, and we look forward to helping you find the perfect windows, siding, and doors for your home.

What our customers are saying

"Wow! So happy with our purchase and couldn't recommend more! After being stressed with so many estimates we found Ryan. Ryan sat with us and explained every aspect of the process and most important the quality of everything they'd do and they delivered. The windows look beautiful and the installers were all so kind and trustworthy. We are so happy with our purchase and highly recommend Window Nation!"

ENGINEERED TO PERFORM

GRAND VIEW DOUBLE-HUNG

Features and performance:

- 1 VyFoam™ insulation in frame and sash provides maximum insulating performance
- 2 The Duralite™ system helps reduce heat and cold transfer for improved comfort.
- 3 Triple-fin weatherstripping at all sealing locations helps decrease air and water infiltration.
- 4 Special-formula PVC never needs painting, resists scratching and denting, and makes routine cleaning easy.
- 5 Fusion-welded sash and frame corners help ensure long-term structural integrity.
- 6 An elegant, sculpted exterior enhances curb appeal.
- 7 Top and bottom sashes tilt inward, allowing for easy cleaning from inside the home.
- 8 A stainless steel Constant Force balance system allows smooth, reliable window operation.
- 9 A cam-type lock and keeper pull the sashes together for a tight, weather-resistant seal.
- 10 A full 3/4" sealed insulated glass unit helps improve insulating performance.
- 11 DP-40 rating supports performance under high-wind conditions.
- 12 Air infiltration rating of 0.04 cfm.

ENGINEERED WITH DURALITE® WARM-EDGE TECHNOLOGY

The Grand View Series features the Duralite® spacer system, an advanced warm-edge technology engineered to enhance thermal performance at the glass edge. Designed to support long-term efficiency and durability, Duralite® helps maintain a consistent seal around the insulated glass unit while reducing heat transfer and improving overall comfort in the home.

Constructed to remain flexible through wide temperature swings and pressure changes, the Duralite® spacer system supports reliable insulating gas retention and contributes to improved resistance to condensation over time. The result is an insulated glass system designed for dependable, year-round performance.

NOT ALL WINDOW FRAMES INSULATE THE SAME

Higher R-value means stronger insulation and better energy efficiency.

R-value measures how well a material resists heat transfer. The higher the number, the better your home stays comfortable and energy efficient. Grand View frames are engineered to dramatically outperform traditional frame materials.

More insulation. More comfort. Lower energy loss.

MORE LIGHT. MORE SPACE. MORE POSSIBILITIES.

WHY HOMEOWNERS LOVE BAY & BOW WINDOWS

Bay and bow windows extend outward from the home to create expansive views, increase natural light, and add architectural depth. Precision construction and reinforced design ensure lasting strength while allowing for a wide range of customizable configurations and finishes.

MORE LIVING SPACE

Create a cozy reading nook, breakfast seating, or the perfect place for plants and decor.

TIMELESS DESIGN

A striking architectural feature that enhances both curb appeal and interior style.

ADDS HOME VALUE

One of the most loved and most impactful home upgrades.

MORE NATURAL LIGHT

Expansive glass welcomes sunlight from multiple angles, brightening your space.

KEY PERFORMANCE BENEFITS

REINFORCED STRENGTH

Steel-threaded mullions deliver lasting structural stability.

INSULATED SEAT BOARD

Helps reduce cold transfer and improve year-round comfort.

BUILT FOR WATER PROTECTION

A sloped sill design helps direct moisture away for lasting durability.

FULLY CUSTOMIZABLE

Choose from a wide range of colors, interior finishes, trim styles, and optional lighting.

Crafted with premium materials and precision construction for long-term durability

THE PERFECT COMPANION TO YOUR WINDOWS

7000 SERIES SLIDING PATIO DOOR

The 7000 Series Patio Door combines dependable energy efficiency with a clean, classic design. High-performance glass and advanced insulation help maintain year-round comfort, while durable construction enhances your home's beauty and efficiency.

BUILT TO LAST: Durable PVC resists scratches and dents, requires no painting, and is easy to maintain. Steel reinforcement adds lasting strength.

EXCEPTIONAL INSULATION: A 3/4" insulated glass package and advanced frame design help reduce drafts, noise, and energy loss.

ENHANCED SECURITY: A multi-point locking system secures the door at two points for added peace of mind.
